Todd A. Kuiken to be Inducted into Medical and Biological Engineering Elite

WASHINGTON, D.C.— The American Institute for Medical and Biological Engineering (AIMBE) has announced the pending induction of Todd A. Kuiken, M.D., Ph.D., Professor, Physical Medicine and Rehabilitation, Northwestern University Professor, Biomedical Engineering, Northwestern University Professor, Surgery, Northwestern University Director, Center for Bionic Medicine, Rehabilitation Institute of Chicago Director, Amputee Services, Rehabilitation Institute of Chicago, Physical Medicine and Rehabilitation; Biomedical Engineering; Surgery, Northwestern University; Rehabilitation Institute of Chicago, to its College of Fellows. Dr. Kuiken was nominated, reviewed, and elected by peers and members of the College of Fellows *for seminal contributions to the field of bionic medicine, including the development and clinical deployment of targeted muscle reinnervation.*

The College of Fellows is comprised of the top two percent of medical and biological engineers in the country. The most accomplished and distinguished engineering and medical school chairs, research directors, professors, innovators, and successful entrepreneurs, comprise the College of Fellows.

AIMBE Fellows are regularly recognized for their contributions in teaching, research, and innovation. AIMBE Fellows have been awarded the Presidential Medal of Science and the Presidential Medal of Technology and Innovation and many also are members of the National Academy of Engineering, National Academy of Medicine, and the National Academy of Sciences.

A formal induction ceremony will be held during AIMBE's 25th Annual Meeting at the National Academy of Sciences Great Hall in Washington, DC on April 4, 2016. Dr. Kuiken will be inducted along with 160 colleagues who make up the AIMBE College of Fellows Class of 2016. For more information about the AIMBE Annual Meet, please visit www.aimbe.org.

AIMBE's mission is to recognize excellence in, and advocate for, the fields of medical and biological engineering in order to advance society. Since 1991, AIMBE's College of Fellows has lead the way for technological growth and advancement in the fields of medical and biological engineering. Fellows have helped revolutionize medicine and related fields in order to enhance and extend the lives of people all over the world. They have also successfully advocated for public policies that have enabled researchers and business-makers to further the interests of engineers, teachers, scientists, clinical practitioners, and ultimately, patients.

For questions regarding the College of Fellows and AIMBE, please contact Jason R. Hibner, AIMBE Director of Member Services and Operations at jhibner@aimbe.org, or call the AIMBE office at 202-496-9660.
