Dr. Xiaohong Joe Zhou Inducted into Medical and Biological Engineering Elite

WASHINGTON, D.C.— The American Institute for Medical and Biological Engineering (AIMBE) has announced the induction of Xiaohong Joe Zhou, Ph.D., Professor of Radiology, Neurosurgery, and Bioengineering; Director, Center for Magnetic Resonance Research - 3T Program, Department of Radiology, College of Medicine, University of Illinois at Chicago to its College of Fellows. Dr. Zhou was nominated, reviewed, and elected by peers and members of the College of Fellows for outstanding contributions to technical development of magnetic resonance imaging and exploring its applications in cancer.

Election to the AIMBE College of Fellows is among the highest professional distinctions accorded to a medical and biological engineer. The College of Fellows is comprised of the top two percent of medical and biological engineers. College membership honors those who have made outstanding contributions to "engineering and medicine research, practice, or education" and to "the pioneering of new and developing fields of technology, making major advancements in traditional fields of medical and biological engineering, or developing/implementing innovative approaches to bioengineering education."

A formal induction ceremony was held during the AIMBE Annual Meeting at the National Academy of Sciences in Washington, DC on April 9, 2018. Dr. Zhou was inducted along with 156 colleagues who make up the AIMBE College of Fellows Class of 2018.

About AIMBE

AIMBE is the authoritative voice and advocate for the value of medical and biological engineering to society. AIMBE's mission is to recognize excellence, advance the public understanding, and accelerate medical and biological innovation. No other organization can bring together academic, industry, government, and scientific societies to form a highly influential community advancing medical and biological engineering. AIMBE's mission drives advocacy initiatives into action on Capitol Hill and beyond.
